SUMMARY

Backend-focused developer (Python/FastAPI/Django) who has shipped and operated two live platforms (Fitterz, Listit) plus freelance legal-tech and e-commerce work. PostgreSQL, Celery, Docker, CI/CD and LLM integration in production. Seeking a junior backend role — Ploiesti/Bucuresti hybrid or remote.

SKILLS

- **Languages:** Python, TypeScript, JavaScript, SQL
- **Backend:** FastAPI, Django, DRF, Celery, Redis, PostgreSQL, SQLAlchemy
- **Frontend:** React, Next.js, Angular, TailwindCSS
- **AI/Infra:** LLM APIs (Gemini), spaCy NER, PyTorch, Docker, Git, Nginx, Caddy, GitHub Actions, pytest

EXPERIENCE

Full-Stack Developer (Freelance) — AILIN May – Oct 2026

Legal-tech platform

- Built and shipped the platform for cases, documents and billing end-to-end for a paying client
- FastAPI async backend: SQLAlchemy, Alembic, PostgreSQL, OWNER/ADMIN role-based access
- spaCy NER pipeline with hybrid regex and AI template field detection
- WeasyPrint PDF pipeline with penalty calculator and multi-invoice batch PDF/XLSX export
- BNS statistics API with Redis and PostgreSQL caching; deployed with Docker and Caddy

PROJECTS

Fitterz — AI Wardrobe [https://fitterz-wear.com/] Jun 2026 – Present

- Live AI wardrobe app: Gemini classification with Fashion-CLIP fallback; YOLOS detections deduplicated by IoU; weather-aware outfits via Celery workers
- 5-service Docker Compose: Django 4.2, PostgreSQL, Angular + Tailwind PWA (EN/RO, dark/light); JWT httpOnly cookies with rate limiting
- 50 automated tests across API, Celery tasks and asset pipeline; GitHub Actions CI

Listit — Verified Marketplace [https://listit-market.com/] Jul 2026 – Present

- Live multi-vendor marketplace: verified storefronts, variants with stock auto-hide, filtered search, checkout and order lifecycle from paid to delivered
- Subscription plans plus per-sale commission ledger with seller payout dashboard; Django DRF, Celery/Redis, S3 media, React 19 TS; Docker and Sentry

ABC Mate Junior — E-commerce Aug 2026 – Present

- E-commerce platform for digital teaching materials (Moldova market): Django 5, PostgreSQL 16, React 18
- Stripe Checkout with offline confirmation flow; signed 7-day download links, auto-ZIP and email delivery
- Hardened auth, Sentry monitoring, fail2ban, DB backups; Hetzner VPS, Docker, Caddy, Playwright E2E

EDUCATION

BSc Computer Science — Ovidius University of Constanta 2023 – 2026

MSc Advanced Information Processing (TAPI), in progress — UPG Ploiesti 2026 – 2028

COURSES

- **Supervised Machine Learning: Regression and Classification — DeepLearning.AI / Stanford Online (Coursera), Oct 2026:** regression, classification, regularization;
- **Claude with the Anthropic API — Anthropic, 2026:** LLM API integration, prompt engineering, tool use in products
- **Claude 101 — Anthropic, 2026:** Claude fundamentals and AI-assisted development workflow
- **Advanced General Digital Skills (60h) — Bittnet / Ovidius, 2025:** Microsoft 365 with Copilot, Power BI, low-code automation, cybersecurity basics
